# Fixed Bid Project

If you have a ripe idea for your project with specific budget and time completion, we suggest you to choose a Fixed Bid plan and here's the process flow below.

## Have a Thought

Tell us your idea by describing it to us and we will give the best suggestion to ensure the success of your idea into reality.

## Talk With Us

When you have considered your project, let's talk to discuss about the outline of your project.

## Tell the Details

If you feel 41studio might suit for your project, feel free to send over your detail requirement (if you don't have it we will create it for you),

## We Offer Proposal

Once we got the project's details from you we will handle this step and give you our proposal about the price and the estimate time.

## Dealing

After all set, we will send you our proposal, quotation and or MOU to be agreed by both parties and give you access to our Project Consultant for your quick access (chat, call, video call, etc) regarding to your project and start the development process right away.

# Extended Team

Choose our extended team when you think you need someone to maintain your project, refactor your code, clean up your code or perhaps another undefined project that you can always change as much as you want.

## 1. Tell Idea or Plan

You tell us your idea or plan and what are you going to achieve, then we will come up with solutions and suggestions and find the most suitable developer or team to do your project.

## 2. Dealing

After all set, we will give you access to work directly with the developer or team, so you will be able to chat, call, video call, etc directly to them while our project managers will always supervise everything to make sure everything is perfect.

## 3. Start Development Process

After introducing our developer or team to you, then we can start the project while you can always contact them directly to consult everyday about the work.

# Client Sample List

We have our own approach to things, be it design, tech or scale. They came to us with a need and we built them beautiful creation of webs and mobile apps. We understand that every idea that is gushing from our client is a new color in industry technology.
