## GRAPHIC /UI/WEBSITE DESIGN

At Tanzanite Infotech we use best tools to design website, application, user interface, mock ups and for customizing website themes.

We prefer all these:

- Adobe Photoshop
- Illustrator
- Adobe Aftereffects
- Icon finder
- Corel Draw
- Flash
- Image ready
- Fireworks
- HTML/ XHTML/ HTML5
- Dreamweaver

## HARDWARE BASED DEVELOPMENT

We develop software from scratch and customized developed software for different hardware. We have achieved expertise in this:

- 1) RFID
- 2) Bluetooth
- 3) IPTV middleware
- 4) CCTV Camera
- 5) Many medical tools

## QA & TESTING

Testing is a crucial area where every company put their best effort to get the optimum result. That's where QA team comes into the picture as a dedicated testing team or as an outsourced team from specialized company. Our QA/Testing team test software & applications, both Manually (Manual Testing) & Automated (Automation Testing).

Below are type of Testing & tools used for it by our team :

- 1) Unit Testing : Unity Test tool & Manually writing unit tests
- 2) UI Testing: Keepitfunctional , SoapUI & Manual
- 3) Regression Testing : Testdrive & manual
- 4) Functional Testing : Appium , RobusTest & Manual
- 5) Performance Testing: Apache JMeter & Manual

We use different platforms to track Crash reports & bugs : Firebase, Raygun, etc

## METHODOLOGY

Agile software development uses iterative development as a basis but advocates a lighter and more people-centric viewpoint than traditional approaches. Agile processes use feedback, rather than planning, as their primary control mechanism. The feedback is driven by regular tests and releases of the evolving software. It is based on iterative and incremental development, where requirements and solutions evolve through collaboration between self-organizing, cross-functional teams. It promotes adaptive planning, evolutionary development and delivery, a time-boxed iterative approach, and encourages rapid and flexible response to change.

## PORTFOLIO

We have successfully completed both online & offline projects meeting needs of clients worldwide.
