

Flatlogic: dashboards and web apps to manage, visualize and analyze business data.

About

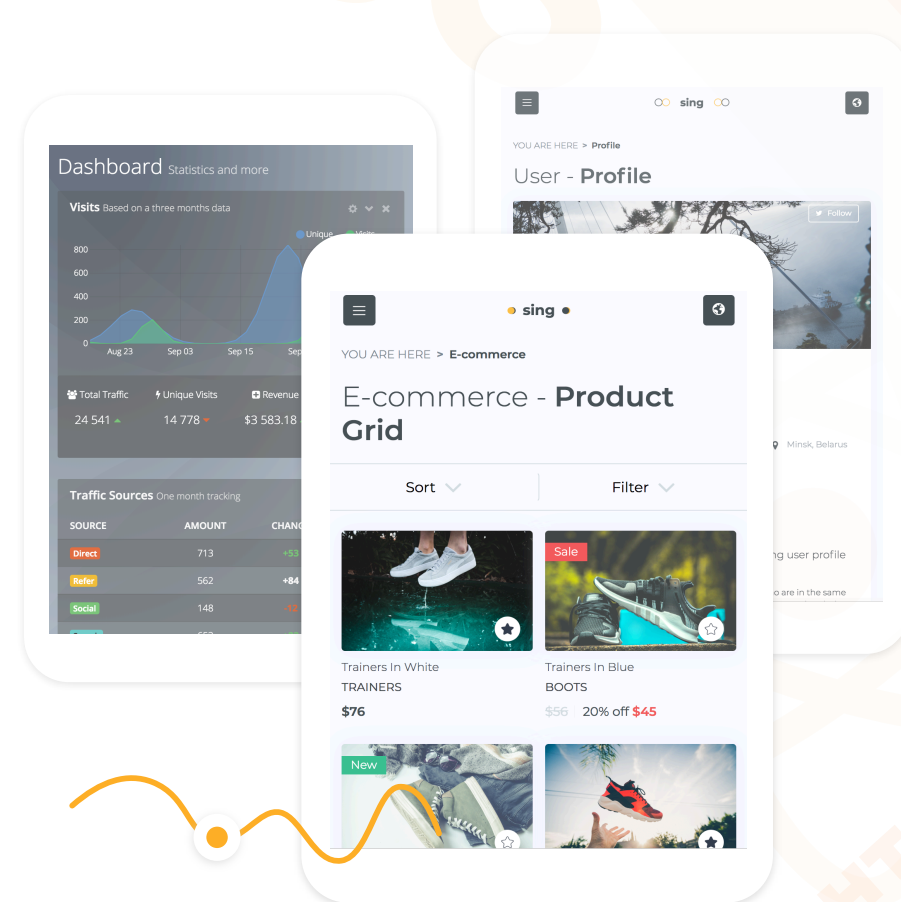

Flatlogic develops its own admin dashboards to save time and money in web and mobile development. The company often is engaged in the custom development, consulting and integration of own products (admin templates).

Products

React Native Starter Kit is a mobile starter kit that allows your team to fully focus on the development of the features that set your product apart from the competitors instead of building your app from scratch.

Sing APP is a brand new admin dashboard template with pixel perfect stylish design and tons of ready-to-use programming features. It is fully responsive built with all modern technologies.

Light Blue admin dashboard is based on a Bootstrap framework, uses powerful Sass (CSS preprocessor) technology and makes page loading super fast with built-in ajax page-loader.

CORE COMPETENCIES

Dashboards & Web App Development: React, Angular, Vue.

Mobile development: React Native.

Machine Learning and **Data Science.**

Clients

Optelos is the leading enterprise drone data management and AI analytics platform built on top of Flatlogic's Sing App Dashboard.

Rezbot is a booking management system built on top of Sing App Angular version with features specifically designed for activity centers and action sports instructors.

SC-Networks GmbH is an e-mail service provider and the manufacturer of EVALANCHE, leading and most modern, web-based e-mail marketing solution built using Light Blue Admin Dashboard.

How to start a project with us

Before we start a project usually we discuss 4 main questions:

- 1 Specification and description.** Provide us with a description of what is your project. What do you expect from us? Which competencies do you need? Will there be a specification of features?
- 2 Time effort:** When do you want to start the project? How much do you need us? Full time, part time?
- 3 Project management:** How do we receive tasks from you? Will there be any project management from your side?

- 4 Legal stuff, payments and price:** We sign a contract and NDA with you. You will have to pay at the end of each month for a previous month. The rate is usually \$50-\$65 (€45- €60) depending on your project scope and currency preferences.

Prepayment is 15-20% of the initial project estimation.
